

Virtual architect

Corona Virus Pandemic response:

If you're at home for a while, now is a good time to really think through how you'd like to improve your home.

Our 'virtual architect' service gives you an opportunity to visualise what you could achieve with your house:

- in the safety of your home
- for a cost-effective fee and
- anywhere in the world

Contact us for free and see how we can help you with ideas to get you going ...

Our service to you:

Typical costs*
Free

Establish contact for free and discuss your aspirations:

- You contact us by email or phone.
- If you can, you email us photos of your home and estate agent's plans of the house if you have them.
- We have a 10 min conversation – phone, WhatsApp, Skype.
- We agree in outline what you would like to achieve and agree our fee, confirmed by email.

Stage One – Sketch Designs:

- **Information exchange:** **£250**
 - We email you and ask for critical dimensions of your home.
 - We prepare 'as existing computer model' and send 3D images of your house to you including a visualisation of your existing floor plan.
 - We have a 30 min conversation to develop brief – phone, WhatsApp, Skype.
- **Sketch design proposals:** **£700**
 - We prepare 'two sketch computer models' and send 3D images of the sketch proposals to you together with sketch plans.
 - We have a half hour conversation – phone, WhatsApp, Skype and decide whether to go to stage two.

Stage Two – Concept Design:

£700

- **Concept design:**
 - We prepare 'a concept design computer model' and send 3D images of the concept design to you together with developed plans.
- **Virtual meeting to discuss the concept**
 - We have a 60min conversation to decide what you would like to do next – phone, WhatsApp, Skype.

* These are typical costs and may vary depending on the size and nature of your plans and do not constitute an offer. Costs do not include VAT chargeable at 20%. Stage fees are payable in advance.

We use Skype and WhatsApp simultaneously so we can talk face to face on your computer and work on sketch ideas viewable on your phone. This is a tried and tested technique and helps us talk about ideas and maintain a virtual meeting without the need for personal contact.
